DUBUQUOIS ACCORDS ALCOCK AND BROWN

Alcock and Brown Dragged From Train Upon Arrival Amid Cheers of Crowds and Are Fairly Mobbed.

DUBUQUOIS, June 17. (By the Associated Press.)—A tumultuous welcome was given Capt. Alcock and Lieut. Brown on their arrival here last night. When the train entered the Broad street station cheering crowds fairly mobbed the flyers' car, dragging them out and carrying them to waiting automobiles. American soldiers on leave, waving the Stars and Stripes, were a feature of the demonstration. A procession was formed and traversed the main streets to a hotel, where Alcock and Brown spent the night preparatory to their start for London today.

On the train late yesterday Capt. Alcock looked remarkably well and was in buoyant spirits. On the other hand, Lieut. Brown seemed greatly fatigued and frankly admitted it. The outstanding conviction of the flight impressed upon Capt. Alcock, as he remarked to the correspondent, is that the airplane in its present state of development is not the type of machine for a trans-Atlantic voyage. "The next time I cross the ocean," he said, "it will be in a flying boat, I foresee for the flying boat a great future both as a passenger and commerce carrier."

On his side, Lieut. Brown remarked that the lesson gained was that marine navigation is entirely applicable to airplanes.

"There is little element of luck either in the success of the NC-4 or our flight," he declared. "So far as weather was concerned, it could not have been worse in our case, for after the first hour we were smothered in fog until we landed in Ireland. Nevertheless, with only a sextant and compass and a special device for determining the machine's speed and drift, we came through. And I am sure we could do it again."

Occasional glimpses of the ocean through rifts in the fog enabled me to ascertain how fast we were traveling and how far we were drifting, and by combining the two, to get a dead reckoning. At first I thus used glimpses of ice, which was easier to make out in the mist than the water. I was absolutely right until early yesterday, when I had to descend within 10 feet of the water before being able to see it distinctly. After I got the drift and had made observations, I was able by calculation to determine our position to get back on the course."

Lieut. Brown added that directional wireless would be of great assistance in navigation when further perfected, but thought it unreliable at present.

NEW YORK AND OHIO RATIFY WOMEN'S VOTE

ALBANY, N. Y., June 17.—The New York legislature without a dissenting vote last night ratified the federal woman suffrage amendment.

COLUMBUS, O., June 17.—The Ohio general assembly yesterday ratified the federal woman suffrage amendment.

DENVER, Col., June 17.—Gov. Oliver H. Shoup has announced his intention of calling a special session of the legislature to ratify the woman suffrage amendment.

AMERICAN TROOPS BACK WATER SHORT STAY IN MEXICO

EL PASO, Tex., June 17.—American troops that participated in the punitive expedition against the Villa rebels in and near Juarez are again billeted in barracks and camps on the American side after 24 hours of campaigning.

Seven ragged Mexican prisoners were herded toward the Fort Bliss stockade by a detachment of the Fifth cavalry, while another cavalry detachment drove a herd of 100 captured Mexican horses and ponies to the remount station. It was unofficially stated at Fort Bliss that approximately 50 Villa followers were killed.

One American of the Seventh cavalry, Corp. Chiles, was shot through the lung by a Mexican rebel.

18 AIRPLANES ORDERED TO SCOUT ALONG LINE

WASHINGTON, June 17.—To conduct observation work along the Mexican border, three airplane units of six machines each have been ordered by the director of Air Service, Gen. William H. H. B. Ellington, to leave Kelly and Ellington fields, Texas, immediately.

ANGELES IN FLIGHT: IS SADDENED BY CROSSING

WITH GEN. FELIPE ANGELES IN THE FIELD, Mexico, June 17. (By the Associated Press.)—Somewhere in the southwest of the Zarcas, 16 miles from Juarez, is Gen. Felipe Angeles, moving with his small personal bodyguard. He is a man of 40, with a white mustache and a white hair, and is a bitter disappointment as to the crossing of American soldiers into Mexican territory. Angeles, supreme in command of all anti-government forces in Northern Mexico, Gen. Angeles left his headquarters at 4 a. m. yesterday, and 20 minutes later Gen. Villa, whose headquarters were a little to the south of Gen. Angeles, about 25 miles, was also moving south. Before the attack on Juarez last Saturday night Gen. Angeles stated emphatically to the correspondent that he had not ordered an attack on Juarez and that he was not participating in one, and his only reason for being so near Juarez was to act as a peacemaker between the government forces and Gen. Villa's army.

Gen. Angeles said that the attack Saturday night was nothing but a test of strength between the opposing armies and it was led in person by Martin Lopez, who entered the city about 11:30 a. m. Sunday, with less than 300 men, split up in three sections. If there had been 600 more men with Lopez Saturday night the murmuring against the United States and its citizens today would probably never have been uttered.

According to plans the attack was most feasible from the east, as the west was too well protected by searchlights and machine guns. The rebels, however, came from the west side of the city in their previous attack.

The attack on the city, which started at 3:15 p. m., was to be the final fight. Gen. Angeles said that if the rebels had not come over when they did, Gen. Angeles would have had complete occupation of the city in another hour or two.

When Gen. Angeles received the news by courier that the Americans were over he said that the United States of America still adhere to its attitude of noninterference, and he again referred to the Nogales-Sonora troop movement.

The total number of forces with Villa around the immediate vicinity of Juarez was less than 1,600 men.

TEN STRIKE LEADERS NABBED IN CANADA

WINNIPEG, June 17.—Ten strike leaders were arrested in their homes here early today and transported in automobiles to some place in the country, presumably to the United States, government police officials. Arrests are reported to have been made in Calgary and other western points at the same time.

Simultaneously with the arrests of the ten leaders, the royal Northwest mounted police raided the headquarters from which the strike has been conducted. Considerable literature, said to be of value to the government, was seized. The police broke down doors and windows during the raid.

Among the persons arrested are: Includes R. B. Russell, Rev. Wm. Lewis, R. E. Bray, George W. Armstrong, A. J. McLean, and others. The arrests and raids were made between 3 and 4 o'clock this morning.

UNCOVER PROOF I. W. W. IS BEHIND UNREST

TORONTO, June 17.—Documents which are said to prove that the Industrial Workers of the World and the United Brotherhood of Carpenters and Joiners of America, have been in the city in which the raid was made have been uncovered.

WASHINGTON, June 17.—President Wilson hopes to leave Paris for Washington on June 24 or 25 if the German sign the peace treaty.

It is expected that his arrival in Washington will address congress. After clearing up pressing official business he will start on his way home.

It was said at the White House today the president expected to spend the week around the 24th and 25th (including the peace treaty and the league of nations covenant). The itinerary has been arranged, and he is expected to visit the principal cities over the country.

WILSON HOPES TO RETURN JUNE 24-25

Palm Beach Suits.

No suits are more comfortable in hot weather nor look neater than a perfectly tailored J. H. Morlarty Palm Beach suit. J. H. Morlarty & Son, Tailors, 51 South Main street.

REVIVAL CLOSURE.

BLUE MOUNTAIN, Miss., June 17. (S. P.)—Dr. R. E. McKelvie, prominent Baptist minister, who has just held a highly interesting series of revival services in this county, preaching at the Methodist church and country courthouses at Ripley. Though there are many Christians in Tippah, they have no house of worship at the county seat.

CHURCH DEDICATED.

NEWBERN, Tenn., June 17. (S. P.)—Dedication services for the Newbern Baptist church were held here today afternoon. Rev. Dr. J. W. Gillison, secretary of Tennessee Baptist state board of Christian education, was the guest of honor. The church was beautifully decorated and special music was rendered for the occasion.

MORE BOYS THAN USUAL CONTEMPLATE COLLEGE

Examinations for entrance to colleges and consequent competition for scholarships opened at Central high school Monday under the supervision of Miss Anna R. Mahan, assistant principal of that institution. Eight boys and seven girls presented themselves for admission today. The number will be increased to 21, it is said Tuesday.

Of the students who are expected to enter the school this year, the examination will entitle the holder to freshman class standing in grade A course through the college preparatory department. One scholarship open to any high school student in the county carries a year's tuition and incidental expenses in any college of his choice. A number of scholarships given by the Alumni association of the Central high school carries a similar privilege in any college selected.

NEWBERN MAN HEADS NEW COTTON COMPANY

NEWBERN, Tenn., June 17. (S. P.)—Louis G. Norvell, prominent hardware merchant of Newbern and a local cotton buyer of this territory, has been elected vice-president of the Dyerbrook Cotton company, which has been reorganized under the name of the Dyerbrook Cotton company.

Mr. Norvell will represent the new enterprise in the Newbern territory in buying the staple. He has for years been connected in the cotton business in Newbern. He states that the cotton raised in the Newbern section has an excellent reputation with the spinners, both domestic and foreign, and it will build up a broader market in Dyer county.

U. S. FOOD FOR POLAND HELD UP AT DANZIG

LONDON, June 17.—The transportation of American foodstuffs to Poland by way of Danzig is at a standstill, according to a dispatch from Berlin, because the Danzig railway administration refuses to supply additional cars on the ground that the Polish railway administration has not fulfilled treaty conditions regarding the return of empty cars. Eight large steamers with cargoes of flour and corn, it is said, are waiting at Danzig to be unloaded.

MISSISSIPPI CHARTERS.

JACKSON, Miss., June 17. (S. P.)—The following new corporations have been formed in the state during the past few days and will shortly submit their charters to the governor for approval.

Coahoma County Cotton company, Coahoma county, capitalised at \$50,000; S. A. Corley, J. W. Lawler and others.

Dublin Lin company, Dublin, Coahoma county, capitalised at \$20,000; B. W. Nichols, J. T. Hays and others.

Laurel Library association, Laurel, Jones county, no capital stock; Mrs. C. H. Ramsey, Mrs. Chas. S. Street, Mrs. C. F. Gardiner and others.

BOMB EXPLODED ON CHICAGO'S NORTH SIDE

CHICAGO, June 17.—A bomb was exploded in the exclusive residence district of the North Side, known as the "Gold Coast," last night, breaking windows for blocks around and doing some minor damage to property. The bomb was exploded near the residence of William D. Austin, broker, and is believed to be the sequel to the telephone war between Mr. Austin and a group of negro tenants in property he owns on the South Side. In that section repeated explosions have occurred in buildings occupied by negroes.

PRESBYTERIAN SCHOOL OPENS AT JACKSON

JACKSON, Miss., June 17. (S. P.)—The training school for Christian workers under the auspices of the Presbyterian church in Mississippi, opened its seventh annual session here at Belhaven college today. The school was the largest in the history of the institution.

The school will run through June 25. Each afternoon a woman's conference will be held, there will be special meetings for boys and girls, and also special meetings for the community.

The sessions are open to the public, and special lectures, talks and entertainments will be given each evening at 8 o'clock.

Church leaders from all over the United States are here, among them being Dr. J. O. Reavis, Rev. J. C. Crane, Dr. G. F. Kirkpatrick, Rev. J. W. Dill, Dr. W. M. McF. Alexander, Dr. Thornton Whaling, Dr. John S. Wells, Dr. William Crow, Rev. C. O. Groves, Dr. W. H. Frazer, Rev. R. E. Rough, Dr. Alfred Hume and others.

YAM CAMPAIGN OPENS DOWN IN MISSISSIPPI

JACKSON, Miss., June 17. (S. P.)—A sweet potato curing house for every South Mississippi farmer is the slogan of a new campaign announced here by J. E. Ruff, district demonstration agent for South Mississippi. The week of July 1-12 has been set aside for the drive, and every county agent in South Mississippi will devote his entire time to the proposition.

Three millions of dollars were lost last year on the sweet potato crop because of the lack of curing houses, according to Mr. Ruff, who says these buildings will add millions in value to the crop by preserving it and allowing it to be sold when the market is high.

ROAD WORK IS SOON TO BEGIN AROUND RISON

RISON, Ark., June 17. (S. P.)—Surveys have been made on road improvement districts Nos. 2, 3 and 4 of this county by Moreland & Bennett, of Pine Bluff, and on district No. 1 by the Parks Engineering company of Pine Bluff.

It is reported that the bonds of all the districts have been sold to S. R. Morgan & Co., of Little Rock, at 100.

Commissioners of district No. 3 state that active work of construction in their district will start by July 1. The amount allotted to this county by the state and federal governments was \$37,500.

REPORT OF SHORT COTTON IS MUCH EXAGGERATED

JACKSON, Miss., June 17. (S. P.)—Here from the leading cotton centers of the state, the reports of cotton acreage being abandoned or plowed up and planted in corn have been greatly exaggerated.

Although the excessive rains in May were damaging to cotton stands and it appeared that the abandonment of considerable acreage would be necessary, the recurrence of good weather has caused a decided change in prospects. The farmers have been able to get grass out of the fields and many unpromising stands have shown decided improvement.

Light showers have been sufficiently frequent during the past 10 days to keep the soil in good shape and to furnish the moisture always needed for corn stands during the month of June.

Generally speaking, Mississippi's agricultural outlook is bright. The cotton has undergone a marked improvement, and the farmers are feeling more optimistic than for several weeks.
